

Wales Open For Canoeing

Any Time

Anywhere

The Welsh Government and the most vocal anti-canoeing fishy folk have failed to show that the common law public right of navigation has been extinguished on any flowing water in Wales

http://andybiddulph.co.uk/ESW/Files/Asserted_PRN.pdf

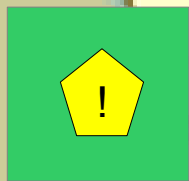

All restrictive agreements and “rules” set by fishy folk are void, ignore them

The PRN makes the river a public place. Any threats or public order offences (including foul language) call the police.

ENJOY responsibly

Eco hazards

Salmon populations in all but one Welsh catchment are at risk. Please avoid the spawning areas in November December & January. NRW have maps.
